Hey Todd and Team,

Took a look at the document and wanted to touch base a little bit. Todd, I mentioned to you on the phone that we are working within a framework and thus constraints of what is/isn't possible.

After reviewing the document I think the team as a whole may be off on feasibility/practicality of the site. I'm not sure if expectations and results are aligning for you guys and honestly I want to make sure we set the right expectations for the remainder of the build.

We'll go through this document and see what is feasible within the platform. I really want to prepare the team for options moving forward as we won't be able to accomplish every request. As long as everyone keeps an open mind we should be good. We have your best interests at heart here and we want to fully complete the project for you guys.

Looking forward to chatting on Monday!

Thanks so much,

Vincent
