

Trends in State Financial Aid Policy Webinar Hosted by the Education Commission of the States

Every year, Education Commission of the States tracks hundreds of pieces of legislation related to state financial aid programs. Review the recording of the webinar presented on December 5, 2018 for the NASSGAP membership to learn about trends across the country.

A recording of the webinar can be found here: <https://www.ecs.org/stay-current/webinars/>

The scatterplot of tuition and state aid can be found here: https://public.tableau.com/views/Four-YearPublicTuitionversusStateAidperFTE2014_0/TuitionvAidbyState?:embed=y&:display_count=yes&publish=yes.

Karole's work on net price by income and by state can be found here: <https://www.ecs.org/can-students-afford-to-pay-for-college/>

As we mentioned on the webinar, we are very open to feedback on both the scatterplot and net price data as ways to measure college affordability. Your comment about not being able to break out sector-specific charts is definitely well-taken. If you think there's a way for us to get better data from the membership to make sector-specific scatterplots, we'd love to be part of that conversation.
